LINECARD

Global leader in the design and manufacture of highly reliable power conversion solutions

Chassis Mount Power Supplies (AC & DC) -20 watts to 24 kilowatts and includes open-frame and enclosed models, conduction cooled units, highly configurable modular power supplies, rack-mounting bulk front end units and power systems for horticultural LED lighting. Medically approved versions and many higher power models feature extensive built-in intelligence; **Board Mount Power Supplies (DC/DC)** - DC/DC Brick(1/2, 1/4, 1/8, 1/16), Bus Converters, Point of Load Converters, Industrial, Medical, AC/DC Board Mount and High Voltage DC/DC

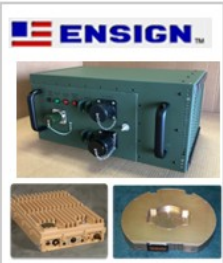

Leader in Electronic Enclosures Manufacturing

Bud has been a leading electronic enclosure manufacturer for the electronics and data industries for over 90 years. extensive line of affordable products ranges from small metal and plastic electronics enclosures to large cabinet racks with many NEMA/IP67 Specifications. Bud also has experienced Engineering Staff to Design and Modify your designs to match your particular needs.

Market Leadership through design innovation in electromechanical switches

High Performance Detect, DIP, DIP Coded Rotary, Keyswitch, Navigation, Pushbutton, Rocker, Rotary, Slide, Snap-Acting, Switchlock, Tactile, Thumbwheel & Toggle Switches. SMT, Through-Hole & PIP, Illuminated, Power, Ultra-Miniature, Low Profile, Sealed, Industrial and Anti-Vandal Switches. Custom Switch Modules & Encoders. EMV and PCI Compliant Smart Card Readers. ESA & NASA High-Rel Connectors.

Setting the standard of excellence in custom power supply design.

Design, Test, Qualify and Manufacture Custom Power Supplies that operate in Extreme Environments. Current power supplies range between one watt to nine kilowatts. Specialize in High Quality and reliability, High and Low Voltage Power.

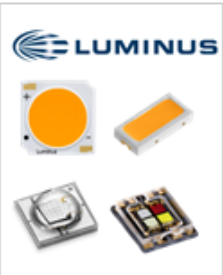

Specializing in the design and manufacture of high quality RF & Microwave ceramic chip capacitors, inductors and integrated passives

JohansonTechnology Group - High Frequency Ceramic Solutions for Cellular, WLAN, Bluetooth, Zigbee, ISM, RF/ Microwave, Millimeter Wave, Fiber Optic, GPS, GNSS,BDS & Galileo. Custom high frequency ceramic solutions
Johanson Dielectric Group -RF High Q, HV MLC, Mini Switchmode & High Temp Capacitors, EMI Filter using X2Y Technology & Custom Planars

A global leader in the design and manufacture of high quality circular connectors

Push-Pull, Screw Coupling; IP68 rating, Metal & Plastic versions. Multipole, coaxial, triaxial, quadrax, high voltage, fiber optics, thermocouple, fluidic/pneumatic, and hybrid. Focused on challenging application environments including medical, industrial control, test / measurement, broadcast, robotics and telecommunications

Leader in very high power density LEDs that enable exceptional focusing of light.

Design, Develop and Manufacture LEDs for High Power White Light, UltraViolet/UV, Infrared(IR). Illumination, Horticulture, Industrial and Medical & Life Sciences applications.

CUVEE LED Drivers: Delivering smart power solutions to the optoelectronics industry (lighting, medical & others).

Design, Engineering, and Manufacturing of User Interface Solutions and Graphic Product Identification Components

Membrane switches, rubber keypads, capacitive touch, light guides, and touch screens. Plastic injection molding, in-mold decorating, metal and plastic nameplates, as well as several other complementary products and services for customer applications.

Technical Cables, Retractiles, Coil Cords and Assemblies tailored to your industry's exact needs:

Your responsive partner for developing and manufacturing customized technical cables, coil cords and complete interconnectivity solutions. Harsh Environment, Medical, Transportation, Robotic, Marine & Underwater, Flex Cable.

Panasonic is a trusted name in high-quality and innovative electronic component devices and solutions.

Wireless connectivity devices-WIFI/BT low energy. **Relays** and **contactors**. **Sensor products** including passive thermopile arrays, high sensitivity air quality, gas and flow sensors, passive infrared motion sensors. **Graphite thermal interface material**. **Connectors** -Micro-miniature board-to-board, board to FPC/FFC, board-to-micro coax, 5G with narrow pitch. **Switches**—Tactile and detect, potentiometers and encoders. **Capacitors**—Polymer, hybrid, film, AL. **Resistors, Inductors, circuit protection devices**.

Synapse is an Internet of Things (IoT) company specializing in Intelligent Lighting and Industrial IoT applications by providing the necessary software, hardware, and networking capabilities

Control your industrial and commercial lighting and environmental systems, manage energy use, and optimize your operations, all through our powerful, wireless infrastructure. From lighting controls to industrial sensing, our solutions extend your five senses, giving you access to untapped information and insights.

Premier supplier of engineered and custom designed OEM cable assemblies

Provides custom wire/cable/connector combinations for your specific requirements. Wasatch specializes in cost-effective molded assemblies that include unique custom connectors along with one-of-a-kind over-molded strain reliefs. Whether molded or mechanically assembled, we offer ISO assemblies designed to your exacting specifications.
